

INVITATION

to a special event

Hear the Pictures! See the Music!

in the frame of International Documentary
Film Festival CRONOGRAF

Dear friends,

We would like to invite you to a very special event that is organized by the Union of Fine Artists from Republic of Moldova in cooperation with OWH TV Studio in the frame of International Documentary Film Festival CRONOGRAF.

At the 18th of May, 2008, DJ/VJ triPhaze from Germany will present his performance at the Club BoozTime starting with 10 pm. Combining electro music, electronica and drum'n'bass with sequences from movies, he will create a new audio/visual experience. During his show pictures and music will fuse into a unique content.

This event will show that movies are not only to be perceived in cinema or on TV but can be enjoyed any time and everywhere. It also will show that a movie is not a finished product but can be transformed and put in any context.

triPhaze is working with experimental music, visual arts and photography, producing sound installations, non narrative experimental documentations and soundscapes in live cinema context. Furthermore he is the founder the music label "Privatelektro" and a member of the famous laptoporchester. He has been performing all over the world: Gallery of Contemporary Art – Leipzig; Nextwave Festival 2004 – Australia; Saidye Bronfman Centre of the Arts – Montreal, Canada; Stuttgarter Filmwinter – Germany; Academy of Visual Arts – Leipzig; Gwangju Biennale - South Korea, etc.

in short:

date: May 18, 2008

time: 10 pm
